# STAYSAFE

## Piloting the tools: Context and quantitative evaluation

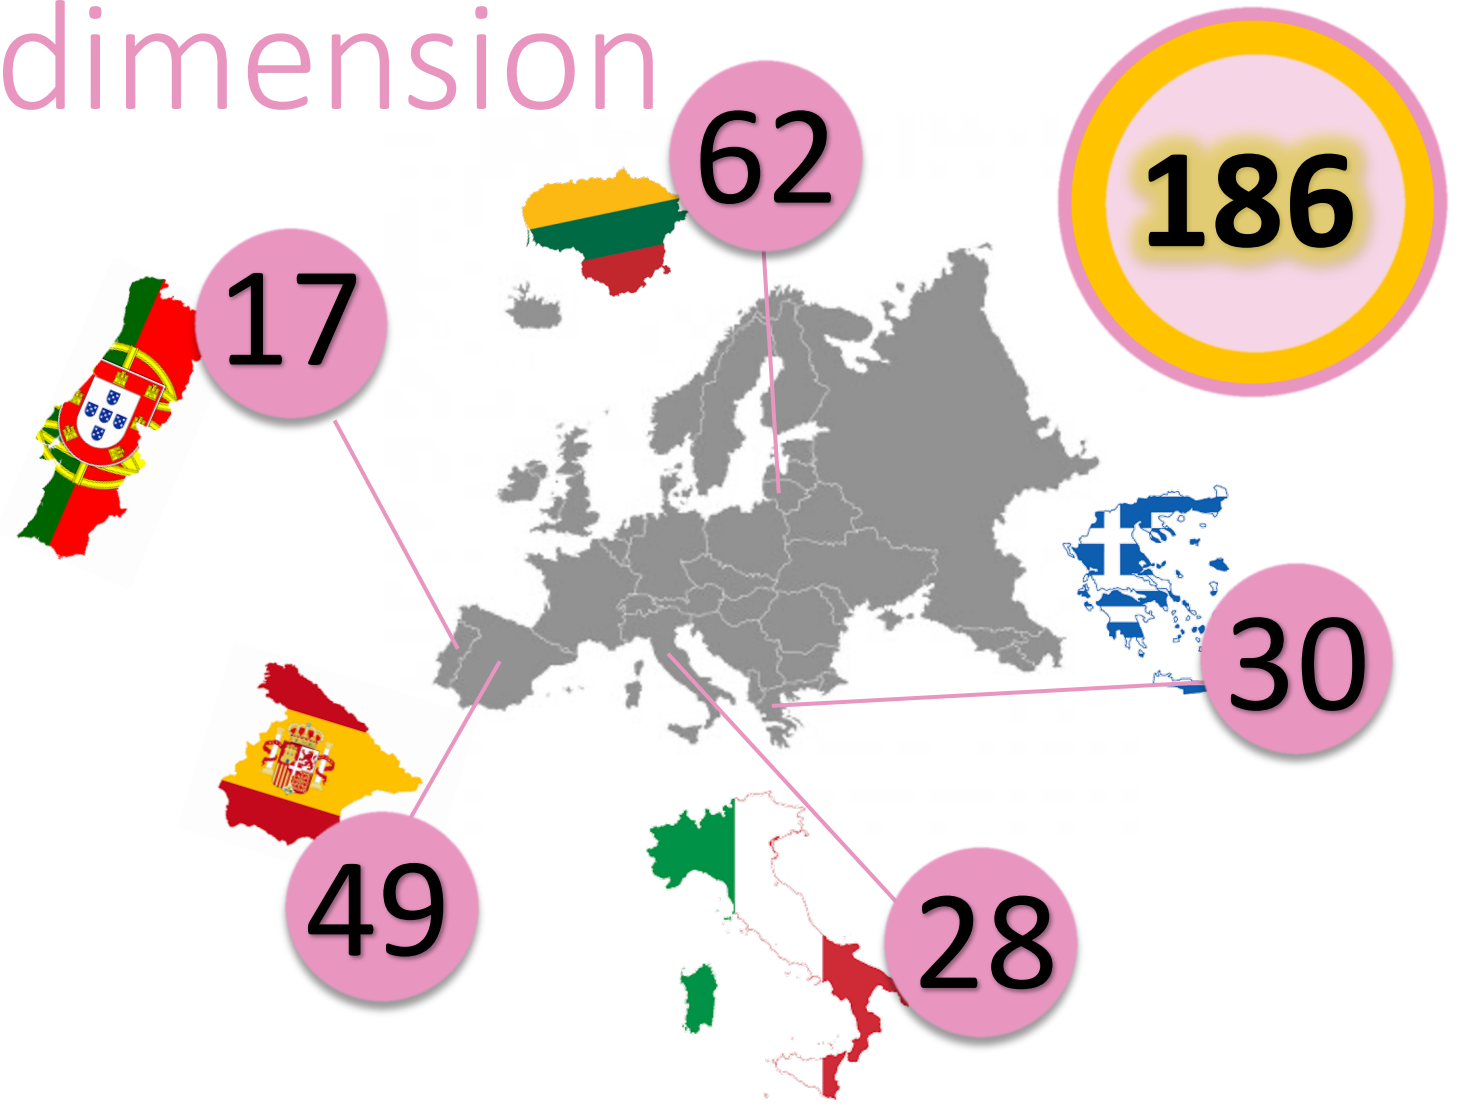

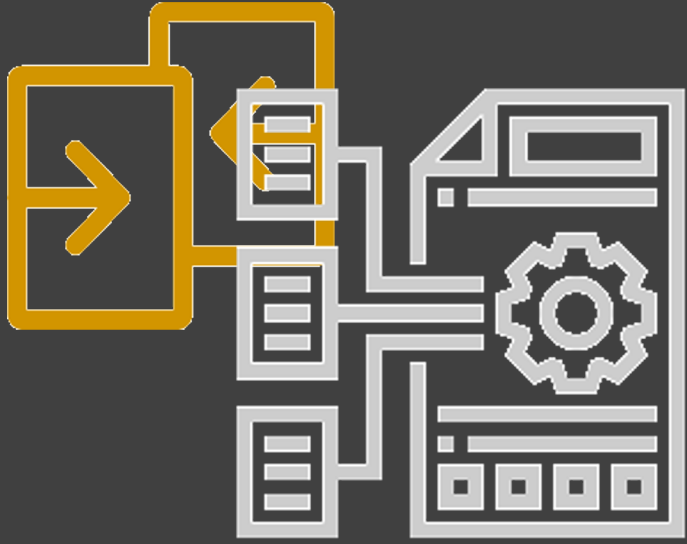

[www.staysafeproject.eu](http://www.staysafeproject.eu)

# Piloting protocol

Guidelines for partners to describe minimum requirements and organize homogeneous pilot trainings within each organization

## Overall dimension

## Objective

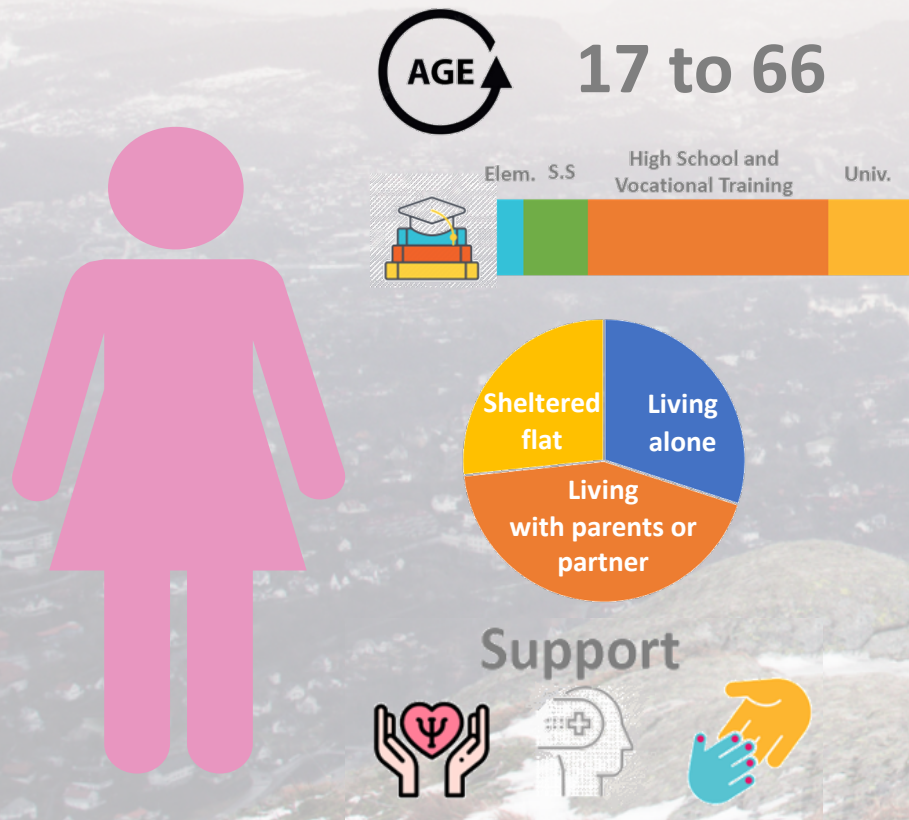

The objective of piloting was to verify the **change in the behavior** of the participants **by using educational material based on creative dramatic representation techniques**, which are considered especially effective in relation to this subject and in particular in groups such as people with disabilities.

# Women with psychosocial disabilities

## Profile

## Context

- Specialized Centers *coop.* in recruitment of participants
- Face to face workshops
- Equipment and material as suggested
